FOR fire investigators BY fire investigators

NAFI is pleased to offer our members the exclusive opportunity to obtain comprehensive professional liability insurance. The program was developed specifically for fire and explosion investigation professionals. NAFI worked closely with insurance experts and attorneys to design an Errors & Omissions policy that meets the unique needs of our members.

NAFI has partnered with Lloyd's of London to offer broad coverage that targets key professional liability exposures, including coverage not commonly available to fire investigators.

- Clear coverage for breach of a client contract
- Full civil liability coverage, not just negligence
- Specific coverage for breach of intellectual property rights
- Reimbursement of costs incurred to help reduce or avoid a claim
- Coverage for punitive and exemplary damages
- Virus and hacking liability coverage

**Exceptional coverage.
Competitive prices.
Exclusively for NAFI members.**
